SUMMARY STATEMENT:

We have been trying to find a better system for pool parties. You will see this will utilize current space that is not being used except for a grassy area. This will eliminate the need to keep the Multipurpose rooms tied up with pool parties. If someone wants to rent a room they will pay the normal rental prices. This area can also be utilized by the general pool users (when parties are not happening) and with summer Jamboree. Please see justification for more information.

Recommendation:

Approval of the amendment to the agreement so that surveying may begin on Freedom Park.
