ADA Report & comments from Baker & Lawson

**Summary Statement:**

The ADA inspection for Freedom Park was conducted on December 2, 2009. I have included the ADA report that shows everything that needs to be fixed. The contractor Total Site will be responsible for fixing the issues with the exception of the announcer stand which The Parks Department ask for variances on. We had to ask for the same variance for Bates Park. We will get with Baker and Lawson to file the paper work.

**Recommendation:**

Have the contractor fix the issues with ADA compliance report.
