Sample of patron usage

Summary Statement:

The staff would like to discuss the possibility of amending the pool hours to close at 7pm to help reduce overhead costs of staffing and electrical consumption. The facility is seeing little to no patron usage beyond this time. We have surveyed other departments and have found our extended swimming hours to be an oddity within our field. This time will still allow for all aerobic classes to be held in the evenings. Our proposal is to amend the hours from Labor Day to Memorial Day and then reinstate the late hours from Memorial Day to Labor day for our summer guests.

Recommendation:

Approve change of hours.
