Quotes from Marathon

**Summary Statement:**

The Recreation Center has been in the process of surveying our members since the completion of the expansion, looking to optimize our facility. Our members have indicated that they are dissatisfied with our outdated and rusty plate weights. During this process staff was also able to demo a new type of cardio equipment called, AMT (Adaptive Motion Trainer). Our members have loved this type of equipment and we have been able to get a quote from TXMAS at a discounted price. The addition of these pieces will help alleviate some of the wait to use the cross trainers.

**Recommendation:**

Approval as requested.
