

Recreation Report to ABLC:

- Revenues for January were again up from years past, giving us our most successful “off-season” month since the center was opened.
- The Senior Program has a trip to Brenham planned in March to see the Wildflowers; we have already sold out our first van and are procuring a second to allow a larger number of our citizens access to inexpensive travel.
- The Senior Commission that was a resolution created several years ago will be expanding our horizons to allow for even greater services than have been offered in the past, the United Way will be presenting at our next meeting to explore opportunities with us.
- The change in the natatorium hours had a smooth transition; we feel the change was a wise decision on behalf of the City.
- The Easter Egg-stravaganza will be held on March 27th in Bates Park as in the past. If you would like to help with the event please contact either of the Chris’ or Amber and we would love the help as would the community.
- When we originally planned the Community Garage sale we had some concerns about the lack of interest as we have never had an event of this type. Our concerns have quickly vanished as we have completely sold out of space and are looking forward to a great community turnout.
