**Summary Statement:**

ABLC agreed to let Angleton Little League cut out the base paths on the ball fields at the December 2009 meeting. The Little League Board has come back to the City and feels that the project entails more labor and knowledge of ball field maintenance than they are comfortable doing. Little League has contacted two companies for a quote on the work; you have been provided a copy of the quotes. Staff feels the baseball fields should have been designed to represent a traditional baseball field and questioned this to the engineering firm during the construction process of the fields, staff was told the fields were designed with a grass infield from the beginning. I feel that we need to look at correcting the issue we have with the fields to represent a traditional field.

**Recommendation:**

Staff recommends going with Fielders Choice at \$49,200.00
