

## **August 2007 KAB Council Report**

### **Current Topics and Projects:**

\*I am wrapping up loose ends and completing all mandatory projects in anticipation of my last day, September 4<sup>th</sup>. It has been a pleasure to work with each of you. I hope you will continue to support the cause of KAB, as they will truly be beneficial to Angleton in the upcoming growth spurt.

\* At Keep Texas Beautiful's annual conference the Governor's Community Achievement Awards presentation for our second place award as well as the Gold Star recognition and Award of Sustained Excellence were made. The Exchange Club of Angleton was also awarded an honorable mention for their KTB civic participation.

\*The Keep America Annual Report is in. The report, the Litter Index and a cost benefit analysis are all part of the requirements to maintain our affiliate status with the national organization. I will have the exact numbers for you at your meeting.
