

Recreation Report to Council

- Charter memberships are expiring; the reminder letters are being sent out. This was something that our members really like last year.
- We have seen an increase in memberships in the past month.
- The Recreation Center is currently looking at a lease option for new cardio equipment to better serve our members with more reliable equipment.
- The pool will be temporarily closed on Monday April 21st to have the deck professionally cleaned.
- The Recreation Center is the new host site for the City of Angleton Blood Drive; the next drive is April 30th. Chris Orlea is a new contact person for this event, Amanda though is still available to answer questions as well.
- We are hard at work finalizing summer plans for the department including Summer Jamboree, which got a great response from sponsors this year – great job Amber! We are also gearing up for swim lessons and the opening of our outdoor pool in May.
- The Recreation Center will soon be hosting online enrichment classes through Alvin Community College, with classes such as: Computers 101, Foreign Language, Photography, etc. These courses are geared towards adults looking to enrich their life at their own pace. The programs are offered through an online server – Education2GO.
- We are hosting a class to certify Water Safety Instructors to teach swim lessons this summer; the class will begin on April 25th.
