

July Recreation Report to Mayor and Council:

- The Party-Pad area has been completed and we already have reservations made for the area; this project has received a great reception from the public.
- Summer Jamboree will be ending on August 14th; we will be attending an Astro's game to wrap up a great summer. The department would like to thank Amber Popp for all of her and her staff's hard work to make this program such a success.
- Swim lessons are completed for the summer; we are in the works of making this a year-round program to better serve our community.
- Our floor-aerobic instructor will be offering a body-sculpting class soon; this of course will be at no additional cost to our members.
-
