Attachments: letter from Angleton Drainage District and Amendment to Interlocal Agreement

SUMMARY STATEMENT:

When Angleton Drainage District agreed to participate in the Jamison TIRZ there was no provision for reporting account information to the Drainage District.

Since there is now legitimate questions as to when and if the TIRZ will be fully developed, the ADD auditor has requested we have some sort of reporting mechanism for their records. The attached letters and agreement is fairly self explanatory. Since we are the creating taxing entity all money is to be paid to us; this will allow ADD to turn over checks to us. The attached agreement has been approved by the ADD.
