SUMMARY STATEMENT:

The Brazoria County Elections Department would like to apply for a pilot program with the state regarding "Super Precincts". This super precinct would allow any resident qualified voter to vote on election day at ANY location in Brazoria County. This requires that all voting locations are networked capable to have "real-time" voting (meaning you can't vote in one location and run down the street and vote again, they will know).

Brazoria County needs your resolution in support of this to qualify.

Recommendation: Sign a resolution of support.
