

Recreation Report to Council

- The Angleton Recreation Center was named the #1 place to visit in the Houston Area by Houston Family Magazine; we were described as, "...state-of-the-art, and ...[a] best kept secret even worth the hour drive from the Northwest side of town."
- We are experiencing record breaking revenues. In May we generated \$74,502 in revenues versus the \$54,167 we saw last May. I feel our improvements are definitely being noticed by our citizens and also of other Cities.
- Groundbreaking will be taking place any day on our new "Party Pad" area located off the natatorium.
- Swim lessons are under way and into our second of four sessions taught this summer.
- Summer Jamboree sold out within 3 days of being opened for registration; with the assistance of Amber, our new Recreation Specialist, we feel this will be our best summer yet.
- We saw around 10,000 visitors in the month of May and as of 6/11/08 we have already seen 6,200 visitors and are staying consistently busy.
