

April/May 2008 KAB Council Report

Current Topics and Projects:

*TXDOT planting/project is complete. I am working on “Welcome to Angleton” sign options.

*Currently am working with Mr. Smith on specs for an HGAC school recycling grant.

*Board attendance was addressed at our last meeting. You have a request for a change in attendance requirements.

*We will be coordinating an effort with other area KTB affiliates to make the Fair a “Green Event”. This is sponsored by Dow’s KTB green grants. We were selected to head this because we threw out the idea of using the Fair as our venue. We are becoming know to KTB staff and board members and it is beginning to pay off!
