RE: Downing / Stadium / Campus

Dear Greg:

After the final inspection and my review of the punch list items, I recommend that Council accept Downing Road, Stadium Road and Campus Road into the City's street system for maintenance with the exception of that part of Campus Road which lies within the right of way of FM 523. For that portion we recommend withholding acceptance until we have final concrete beam breaks and have had an opportunity to review the completed portion with TxDOT.

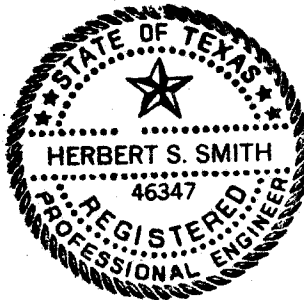

Please contact me if you have questions concerning this recommendation.

Sincerely,
