SUMMARY STATEMENT:

During Ike the flashing red light at the corner of Downing and Cedar was knocked down and broken and is beyond repair. We looked into putting flashing lights on each stop sign that was solar but the price is \$1600 for each of four stop signs. There are stop signs on each side and there has been no problem since it has been down. I will have the price for replacing the red light at the council meeting.

Recommendation: Asking Council's recommendation on whether to spend the money to replace the flashing red light or leave it with just stop signs.
