

This month recycle was affected by the hurricane; we were unable to pick up recycle for 7 days of September. When the Parks Department started the recycle program up the number of homes were down slightly but the number of bags at each has were up. The recycle crew noticed that there where a lot of plastic water bottles in the bags, this made the pounds and tonnage down, because we all know that the plastic bottles do not weight but a ounce. The program will bounce back from the storm and resume to the normal numbers. The recycle department has hired a new crewmen and he is doing a good job.

Recycling information sept. 2008	Tuesday	Wednesday	Thursday	Total Homes
Week 1	311	338	257	906
