

Recreation Report to Mayor and Council:

- Fall Family Fest was a huge success; we saw about 350 people and saw the community having an even better time than last year. It is our goal to continue to improve upon every event the City hosts and with these numbers and comments we received we know we are on the right track.
- Winter swim lessons will begin this month; this is our first year to offer classes during this time frame and we hope to help kids make the most of their winter breaks.
- For January we are preparing to host the Junior Olympic Skill Assessments. This event is similar to the Punt, Pass, and Kick and Pitch, Hit, and Run that we have hosted for many years in the past. This event features basketball, track, and tennis.
- Fitness classes continue to grow, our weekend fitness classes have doubled in attendance.
- As a reminder the Recreation Center will be open on Christmas Eve until 5pm and closed on Christmas Day, as well as closing at 5pm on New Year's Eve and Closed on New Year's Day.
- ABLC has recently approved the purchase of two new adaptive motion trainers, these are cutting edge pieces of cardio equipment and Angleton is very fortunate to have these pieces and these types of acquisitions are what are keeping us relevant in the industry as a leader. In addition to these new trainers our plate weights have been upgraded to urethane weights versus cast iron allowing our equipment to avoid rusting and provide a more user friendly workout.
