Greg Smith
City Manager
City of Angleton

We recently remodeled the Whataburger in Angleton and I wanted to write you to acknowledge you and the City of Angleton. Your Chief Building Official Robert Owens was a pleasure to work with and accessible for questions and timely in reviewing our proposed plans.

Our inspectors Roy Hernandez and Eddie were very professional and Irene in the office was a pleasure to work with. You have a great staff. Sometimes we find it difficult to work with city building departments who are too busy to discuss problems and solutions and even be available. We hope to do more business in Angleton and best wishes to you and the City of Angleton.

Thank you and your staff.

Respectfully,

Roger Harris
