

Recreation Report to Mayor and Council:

- We are approximately half way through our Summer Jamboree program; we are tremendously pleased with the results and look forward to getting community feed back to make next year even better. Thanks to everyone that was able to join us on a trip so far.
- The new Senior Program has been kicked off and going great. We are in need of Bingo Callers; if you or someone you know is interested in doing this please contact Chris Orlea or Amber Popp at the Recreation Center.
- Our weight room expansion is showing marked progress; we have a foundation poured and our patrons have been very excited about the update to our facility.
- We have experienced an increase in our bather load recently; to accommodate this we have updated our salt system to handle the larger load.
- We are beginning a new Saturday morning aerobic class at the request of our patrons; we are expecting a large class.
- We are having record numbers attend our fitness classes; we have a recently consistent following of 35 in one of our land classes.
- We are beginning signups for our summer basketball league; we hope it is a success.
