Summary Statement:

While the old Council chamber is being remodeled, we felt this was a good time to enclose the side entrance to create an “unmanned” Visitor’s Center. The construction would allow us to enclose the area and allow 24/7 access to visitor’s. The area would have a security camera that would be monitored by the PD and we would have our own signage, in addition to working with TxDot to allow additional signage, helping to bring visitors to the center.

Recommendation:

Approve expenditures for new Visitor’s Center.
