

Recreation Report to ABLC:

- We will begin Summer Jamboree and swim lessons this month; our registration numbers have been great and we hope to entertain our largest summer yet.
- We still have spots available for our Council/Board members to accompany us on our field trips during Summer Jamboree; as before if you feel you would like to be a part of this program please let Mr. Smith know.
- Summer's here and the weather is great for getting our citizens to come and enjoy our pool; we have had many families not only from our own, but surrounding areas as well taking advantage of our great summer.
- NASA hosts a children's camp during the summer; we have been selected as their destination trip. On June 11th, we will be hosting roughly 100 children from their camp and we are very honored to have been chosen.
- Our agreement with Sonora Homeowners Association has begun, and we have been able to introduce our pool to a whole new group from our community.
- Our new Aqua Pump and Yoga Stretch classes have really taken off; these classes are modifications made on their traditional namesakes. These classes came at the request of our members and the Aqua Pump class is nearing 30 participants and Yoga Stretch has a following of nearly 20.
- The Recreation Department saw record revenues this past May, we hope this is a sign of a great and busy summer for us.
- Freedom Park Grand opening was a huge success; Rancho Isabella Elementary School was kind enough to send over a group of children to help us inaugurate our new playground. We would like to everyone who was involved in making this project such a huge success.
