Summary Statement:

Alan Rodenstein will be here to make the presentation to Council on this project. There have been some funding changes with this program some 3 years ago. Staff has been involved with the project for the past several years. You have the attachments that explain the routing and funding of the project. We are not approving the funding tonight. I will need to wait until we get some preliminary numbers. This is a very needed project that has value for the entire community, but unfortunately, funding is limited when it is most needed.

Recommendation:

No recommendation needed at this time.
