Spread Sheet for health insurance comparison

**Summary Statement:**

United Healthcare with the \$500.00 deductible was recommended by Greg Smith. This plan has the closest benefits to the current plan. The co-pay is a little higher but the drug benefit is better and does have mail-in prescriptions. This will place the City of Angleton out of budget by approximately \$30,857.40 for the year. This total is keeping the subsidy at the same as the current year. He does not recommend changing the subsidy to help fund the employee only increase. The extra funding is not worth the subsidy to be removed. The City of Angleton currently offers the subsidy to 1 spouse, 25 children and 5 families. He anticipates that the provider list will meet the needs of the City. It appears it covers most of the physicians that employees have used in the region. The City of Angleton had United Healthcare two years ago and the network was acceptable.

**Recommendation:**

Greg Smith recommends United Healthcare as the health insurance provider.
