This permit application must be accompanied by a certified plat of survey with the proposed location of the structure drawn to scale with dimensions, supplement (if applicable), copy of contractor's proposal (if applicable), material list, and plans with detailed list of how work is going to be done. This application in conjunction with the plans submitted shall be reviewed and no work can be started until the permit is issued. If the said plans are approved, it is understood that the said construction shall, in all respects, conform to the Ordinances and Building Codes of the Village of Antioch, and may be revoked at any time upon the violation of any provisions of said ordinances or codes, or any of the above specifications. The Building Department must be notified in writing of any change orders. The construction permit for a building or other improvement will be issued only after a site development permit (or watershed development permit) is issued, in those cases where such site development permit is required.
