At the regularly scheduled February Taxicab Board meeting, the Board voted to adopt a standard cab fare fee schedule, subject to a 30-day public comment period from February 8 to March 10, 2011. The creation of a standard schedule was discussed at various prior Board meetings. The rate schedule will be based on five (5) zones. Persons traveling within a zone will have a rate schedule of \$6.00. For those traveling outside the zone, there will be an additional \$2.00 per zone, including the zone to which they are going. A map will be provided to identify the zones. Prior rates were based on the taxicab starting in the uptown area, going to the rider's location (uptown, east, west, or south) and then to the destination/drop-off site. This meant, for example, that a person living in the far-east end of Athens would pay the same rate to get to the Market on State as a person traveling from the uptown area, usually about \$8.00. Generally speaking, persons traveling between two points within one zone will pay less than the older, taxicab company set pricing while others will pay close to the same amount.
