Press Release
FOR IMMEDIATE RELEASE

FIRE AND WATER DEPARTMENT TO START HYDRANT WORK

Fire Chief David Butler and Glen Doherty, Superintendent of the Water Department will begin initial work on all city fire hydrants starting this week. The Fire Department is testing the city's fire hydrants to ensure they are in compliance and ensure all hydrants are functioning properly.

Both Departments will be conducting a thorough test and flushing of the fire hydrant system this Summer.

The work will be conducted between 9:00 A.M. and 5:00 P.M. Monday through Friday. Residents may notice a temporary loss in pressure and discolored water. The discolored water may stain clothing so it is recommended to wait until testing is done on that day to resume laundry or dishwashing.

Notices will be published in local media and on the City website, www.cityofeverett.com when the Summer work begins.
