The Farmington Focus

NEW ROUNDABOUT AT HIGHWAY 67 AND BRAY ROAD

Beginning in January 2027, work will begin on a new roundabout at the intersection of Bray Road, Woodlawn Drive, and US Highway 67. Construction is expected to be completed in August 2027.

The roundabout has been designed to prevent traffic from backing up onto US Highway 67 and improve traffic flow into and out of the new Farmington Crossings Development.

According to the US Department of Transportation Federal Highway Administration, modern roundabouts can reduce severe crashes at intersections by an average of 80%.

A video depicting the roundabout design is now available at farmington-mo.gov/public-works. Additional updates will be provided once work begins in 2027.

Winter Safety Tips

Cooler temperatures are here, and with that comes the risk for house heating fires and other safety risks. Take a minute to review these important reminders:

Keep anything that can burn at least 3 feet from any heat source.

Keep portable generators outside, away from windows, and as far away from your home as possible.

Never use a generator, grill, camp stove or other gasoline, propane, natural gas or charcoal-burning devices inside a home, garage, basement, crawlspace or any partially enclosed area.

Test carbon monoxide alarms at least once a month.

Plug only 1 heat producing appliance into an electrical outlet at a time.

If you need help paying your utility bill, you may qualify for energy assistance through East Missouri Action Agency. To apply, call (573) 431-5191 or go to eastmoaa.org.
