

TOWN OF LAKE LURE LICENSED TREE SERVICES PROVIDERS

The Town of Lake Lure requires that anyone undertaking tree removal activity or tree maintenance for compensation must be licensed by the Town prior to conducting such activity. Licensed tree providers are required to take a 50 question exam to demonstrate knowledge of proper tree cutting techniques, tree ethics, and Town of Lake Lure tree regulations. Tree Service Providers are also required to sign a Code of Ethics Declaration assuring that they will abide by the rules and regulations set forth by the Town.

A property owner who wishes to do tree work on their own property is not required to be licensed, but that property owner is still responsible for understanding the requirements of the tree regulations prior to doing any work. If a property owner has a tree professional that they prefer to work with who is not licensed, the tree professional must become licensed before conducting tree work within town limits.
