General Meeting Actions

- Chairman Wayne Hyatt called the meeting to order at 2:00 pm
- The board approved the February 2016 meeting minutes as presented
- Brian Tripp, WK Dickson presented the board with proposed rate increase and rationale for residential rates (80%) and options for commercial rates of 25%, 33%, 50% and %75. Discussion followed concerning how much was needed to qualify for zero or no-interest loans and to cover the expected costs of operation of the Green Line (including debt payments). Raising rates ahead of the project completion will increase our reserves and provide for down payment and closing costs for the loan on the Greenline project.
- Discussed the idea of making the vacation rental homes commercial or leaving as residential at this time.
- The board agreed unanimously to recommend the 33% proposal for commercial rates and the 80% increase for residential and asked Brian Tripp to write a proposal to present to the Town Council at their regular meeting on March 8th.

•	Paul Westbrook recommended that they pursue all available avenues for principle
	forgiveness on the first two years of the loan for the Greenline Project and the board
	unanimously agreed.
