

Lockport to test Tornado Sirens

On Thursday July 21,2011 Lockport Emergency Management and Braniff Communications will be conducting tests on the Tornado Sirens in Lockport from 8:00 AM. Through out the day until 5:00 PM. This test is necessary to determine if additional sirens are needed to alert people in the event of a dangerous situation. In the event the National Weather Service issues a tornado warning the test will be immediately stopped and you will be advised to follow normal precautionary procedures.
