

CITY OF LOCKPORT

WAYFINDING SIGNAGE

Thanks to a Preserve America Grant given by the
Department of Interior, National Park Services

and a Tourism Attraction Grant given by the state of Illinois, the City of Lockport was able to have 17 customized wayfinding signs fabricated to help guide visitors to the various attractions we have in the downtown Historic District. These signs were recently installed by the City of Lockport's Public Works Department and they are a beautiful enhancement to the Historic District. A special thanks to Kathy Knapp who designed the signs, and to the Wayfinding Signage Committee who created and guided the project to completion.
