

Got Plans?

Emerald Ash Borer does...

Planning for EAB Arrival in Your Neck of the Woods

[Terwilliger Lodge](#) 20 February 2008
Dulle Park, 10530 Deerfield Rd. -- Wednesday
Montgomery, OH 45242 6:30 - 8:30 PM

Do you...

- ◆ need a primer on emerald ash borer (EAB)?
- ◆ need an update on the implications of recent research results on landscape ash management strategies?
- ◆ just need a shot of energy in the dead of winter?

Then we have the program you're looking for!

Due to continuing demand, Joe Boggs, OSU Extension, has agreed to repeat his **EAB Primer** and **Landscape Management Update** program. If you don't normally run in gardening and tree care circles, and you don't know the name, Joe is a highly-regarded, engaging and entertaining speaker.

- ◆ Since the July 2002 discovery in Michigan -- our scientific understanding of the "nature" of EAB in North America and approaches to management have changed radically.
- ◆ Since early 2003 -- as part of a collaborative effort between OSU Extension, the Ohio Department of Natural Resources (Forestry), and the Ohio Department of Agriculture, Joe's been on the leading edge in development of EAB education programs for professionals and homeowners across Ohio.
- ◆ Since early 2007 -- if it's been 6-12 months since attending an EAB info program, we've got news for you.
- ◆ Since late 2007 -- did you miss the October & December presentations in Wyoming & Montgomery?
Here's your chance to catch up on a topic impacting all Hamilton County residents.

UNWANTED!
EMERALD ASH BORER

Speaker specs: **Joe Boggs**
Extension Educator, Commercial Horticulture, Hamilton County
Specialist, Horticulture, OSU Extension Center at Piketon

Ohio State University Extension
