FOR IMMEDIATE RELEASE

Water Main Work Coming to Montgomery

(*MONTGOMERY, Ohio*) – On June 7, 2010, major construction will begin as Greater Cincinnati Water Works begins installing new water mains around the City of Montgomery. Crews will start at Hopewell Rd., heading north on Montgomery Rd.

The water main project will require southbound lane closures on Montgomery Road between 9:00 a.m. and 4:00 p.m. Alternating use of the north bound lane will be used to allow travel in both directions.

On June 14, another crew is expected to begin work at Schoolhouse Lane and continue north on Montgomery Rd. to Hopewell Rd. Construction is expected to continue through the end of August and will include Montgomery Road between Pfeiffer Road and Schoolhouse Lane, Tollgate Lane and Jolain Drive. During this time, traffic delays can be expected.

Greater Cincinnati Water Works and the City of Montgomery will take all necessary precautions to keep traffic delays to a minimum, however, alternate routes are recommended. Construction updates will be posted regularly on montgomeryohio.org and via the construction hotline at (513) 792-8345.
