All Participants

As with any public comment process, participation in Open City Hall is voluntary. The statements in this record are not necessarily representative of the whole population, nor do they reflect the opinions of any government agency or elected officials.

2009 Resolutions

What type of New Year's resolutions would you like to see for our community?

Introduction

Looking forward to 2009, we invite you to share your thoughts with the rest of the community: What type of New Year's resolutions would you like to see for our community? What part do you see yourself playing in the community achieving these resolutions?

Here at City Hall we've already made one important New Year's resolution: to continue offering citizens more channels for participating in Montgomery decisions. This Open City Hall forum is one such channel - and so far its been a big success. More than 150 people have visited Open City Hall so far!

Montgomery is a great city with a great sense of history that it shows through the the Landmark Commission, Heritage District, 4th of July Parade, and Bastille Day Celebration. In 2008, the Sons of the American Revolution participated in the Independence Day Parade and Bastille Day Programs. The City of Montgomery should broaden and strengthen its sense of history by continuing with SAR participation and allowing Sister Cities Commission and Bastille Committee to sponsor the SAR's 2009 Patriots Day Program at Terwilliger Lodge.

The business community will thrive with the continued support of the residential and non profit organizations. The City can help promote the business community by working hard to attract different types of retail and service industries and making it easy for businesses to come to our city. We should spend as much time determining whether a business is the right fit as what the business will look like. I hope the City can encourage the commercial project at the corner of Main Street and Montgomery Road to allow for a less dismal entrance to our beautiful city. And, the residential project at the corner of Main Street and Remington.

2009 will be a year that few of us have ever experienced. I expect that finances, city taxes, state and federal grants and support, and all types of income will be very difficult to forecast, and may not match what has been expected and budgeted.

My resolution would be to "live within our means - whatever the means are!

We need to be positive, and take a long term view of every situation. But we must not spend money or borrow hoping that "things will be better some day."
