

RESEARCH ANALYST

Location: Police Department

Hours/Days: Four hours per week, Monday through Friday

Duration: Ongoing

Duties

Assist the department in researching data and preparing graphs and charts for the police department, the police accreditation manager, Town officials, various community and neighborhood groups, organizations, and the community as a whole. The research along with the presentation of the findings will provide continuous updated information on a variety of subjects including but not limited to crime trends, departmental recruiting and staffing, and calls for police service.

Skills Needed

Excellent written, research, technology and math skills. Previous research experience would be an added plus.
