#### **Message:**

Hello - I am writing to express my concern for the health concerns about knocking down the old Bard/BD building for affordable housing. This old structure is next to the elementary school and could possibly send toxins and other harmful elements into the air our children are breathing. If this is going to be knocked down, will you please send proof that no (zero) harmful chemicals/elements will be released into the air and cause any health issues for the surrounding area, particularly AWR school? Thank you, Haley Smith
