The City Council
Niagara Falls, New York

RE: Access to Train Station Property by Comcast in order to install communications upgrades on behalf of Amtrak

Council Members:

Amtrak has requested that the City permit Comcast Cable Communications Management, LLC (“Comcast”) to install certain communications upgrades in the City train station facility utilized by Amtrak. Attached hereto is a letter so requesting.

Will the Council so approve and authorize the Mayor to execute a site access agreement acceptable to the Corporation Counsel that contains various conditions in order to access the train station premises?

Respectfully submitted,

PAUL A. DYSTER
Mayor
