Mr. DeSantis asked if the parking lot was still going to be restriped, and Mr. Vann stated that it would be as previously discussed.

**NEW BUSINESS –****1. Blue Cardinal letter regarding zoning change amendment in the City's Bridge District**

Dan Leonard, of Wendel, stated he would have the completed application, along with revised map, to the Planning Department and Board Member's so the Rezoning of the Bridge District can move forward.

Mr. Polka asked how many properties in total does this effect and about how many of the building are salvageable. Mr. DeSantis stated 39 properties in total and some are salvable. All of the Jenss Buildings are in salvageable states, where the old Hart to Hart furniture building is not. The façade and steel frame will be the only salvage portions. There are some buildings that cannot even be entered due to safety issues as well.

Some of these buildings will qualify for Historic Preservation grants, which will take longer to rehab due to the approval process. They suspect approximately 3-5 years minimum on these properties. The City and Blue Cardinal are on an aggressive path to rebuild all of Niagara Falls not just the North End. There will be more to come on the Opportunity Zones as well.

**2. Hand out Explaining SEQR process from Alan Nusbaum**

Mr. DeSantis encouraged all Board Members to review this material to keep them selves familiar with the process.

**3. Presentation by Steinmetz Planning Group on Sign Ordinance**

Molly Gaudioso, of Steinmetz Planning Group, notified that Board that Barton & Loguidice acquired them. So they will be seeing their logo on invoices and future paperwork.

She reviewed the sign code updates and explained that we are in the Adoption phase of this project. Next thing to do would be to set up a Public Hearing and then vote and forward to Council to hold their Public Hearing and vote.

Mr. Ciccarelli asked how code enforcement would be able to measure the lamination on a lighted sign. Ms. Gaudioso stated that the sign companies know the state rule and they should be able to tell the board the measurement. Another way is for the City to purchase a device that can read and detect the level.

Mr. Kazeangin asked if sign currently exists, but non-compliant under the new ordinance, are they grandfathered in? Ms. Gaudioso stated that yes they are grandfathered in, however if they come to get a permit to make change then Code Enforcement can force them to bring that sign into Compliance.

Mr. Ciccarelli asked that under the Awning sign section, External lighting (no internal lighting) permitted in all districts only. Mr. DeSantis agreed this would be a good change.
