To: City Council

From: Mayor Robert Restaino

Re: **Mold, Asbestos and Lead Testing & Remediation – City Hall Boiler Room**

Recent investigations in the Boiler Room at City Hall have revealed the possibility of asbestos containing materials, lead-based paint and the presence of mold. In light of these investigations, eleven professional firms were solicited to examine, sample and test for these materials and assist the City in developing a remediation plan.

Of the proposals received, the proposal received from Stohl Environmental was rated the highest. It is requested that Stohl Environmental be retained to provide the required services in the amount of \$13,570.00. Funding is available in Tribal Revenue.

Will the Council vote to approve and authorize the Mayor to execute a contract in a form acceptable to the Corporation Counsel?

Respectfully submitted,

Mayor Robert M. Restaino

Anthony Restaino, Acting City Administrator

John Gerlach P.E. City Engineer

Funding Available:
