

**DO YOU OR SOMEONE YOU
KNOW LIVE ALONE?**

**THIS DEVICE COULD
SAVE YOUR LIFE!**

Free Service

Saves Lives

**Organized By:
Payson Police
Volunteers**

- Wireless Water-Resistant Call Pendant
- Built-in programmable Voice Dialer (automatically dials a friend or neighbor for help).
- It calls a friend or neighbor (not a monitoring service) so there is **No Monthly Monitoring Fee.**
- A friend or neighbor can listen in to your home to determine the nature of the problem.

If you or someone you know lives alone, this device could save your life. The Guardian Angel, provided by the Town of Payson Police and Fire Departments free of charge, is installed through your existing home telephone system. You wear a small pendant around your neck.

If you fall, just push the button to activate the unit. It is programmed to call four numbers of people who know you. When they answer, they can push '0' and listen through a microphone

inside the unit. If you need help, you just say help and they will hear you! If they don't hear anything, they will know you are hurt and will send help. Get this unit today by calling the Payson Police Department at 928-472-5065.

PA5800
(PA5801 Console
& HP5064 Call Pendant)

**This amazing program is
funded 100% by
donations.**
