

CITY OF RYE

CITY HALL • RYE, NEW YORK 10580

TELEPHONE (914) 967-5400

Building Department (914) 967-7372

GENERATOR PERMIT

The generator will be placed at least 10 feet from the property line. At property line the generator will not exceed 55db in exercise mode using a meter capable of measuring decibels and of a type meeting ANSI S1.4-1971, Type 2 standard .

The stand alone generator will be placed on a pad and an automatic transfer switch will be installed. The unit will be installed according to manufacturers recommendations. A site plan with the location of the unit will be provided with the description and size of the unit. Fuel source will be noted and if using LP (propane) the size and location of the tank will be noted and the propane company will file.

NEC section 700-8(a) *A sign shall be placed at the service entrance equipment indicating type and location of on-site emergency power sources*
