BUILDING & ZONING DIVISION SAMPLE SITE PLAN

Instructions for preparing a Site Plan

- I. On an 8-1/2 x 11 sheet of standard paper (or larger), draw your individual property. Your drawing **MUST** be to scale and show adjacent street(s) and roads(s), with a direction arrow indicating north.
- II. Show **ALL** buildings, mobile homes, garages, sheds and any other structures on your property on the site plan, regardless of the reason for requesting a permit.
- III. If the requested permit is for an addition, show the existing structure(s) with solid lines and the addition(s) with dotted lines.
- IV. After locating all structures on your property, show distances in feet from lot lines and for key elements of the plan (as illustrated by the circles in the sample, below).
- V. Sign and date your site plan drawing before submitting it with your permit application.
- VI. The drawing below is **SAMPLE ONLY**. Your lot and building(s) will differ in size, shape and scale. Your drawing must accurately reflect **YOUR** property and **YOUR** project. Where the shapes of building(s) differ, include measurements for the offsets from the lot lines or other parts of the building(s).
