SHARONVILLE PATRIOT POINTE

BRICK LOCATION

***ALPHABETICALLY
BY LAST NAME ON BRICK***

PATRIOT POINTE is home to two annual ceremonies: Memorial Day and Veterans' Day. Call (513) 563-1144 for more information.

Patriot Pointe veterans' memorial honors all veterans of the United States Military. This includes men and women — past, present and future — regardless of duty in times of peace or war. The symbolism incorporated into the design sets Patriot Pointe apart from other memorials.

SITE SYMBOLISM

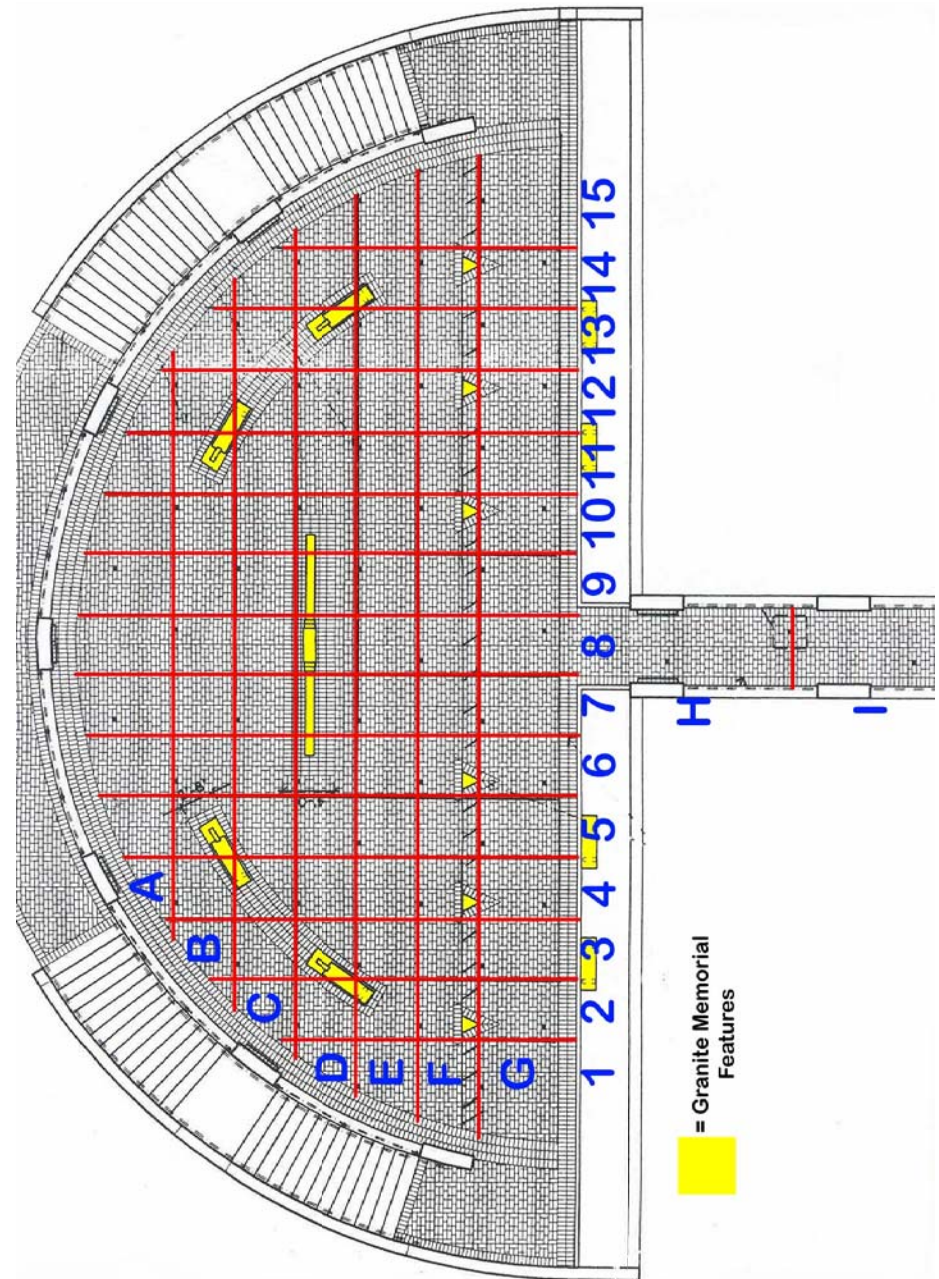

Entering the memorial from the library exemplifies a solemn, passive setting — one of peace, quiet, and tranquility. Patriot Pointe is a place for meditation, reflection, reverence and respect. It is a place to remove your hat and pay tribute to those for whom this memorial is dedicated. As you cross the bridge, you are crossing the water, representative of our young soldiers who left the comfort of their home to enter a foreign land. Carved out of a hill and retained by a massive wall, the memorial is curved, comparable to a protective bunker. The wall represents the solidarity of our military forces; the stone exemplifies the strength of our military men and women. The trees and plants that surround the structure serve as a living memorial honoring all past, present and future peacekeepers of our great nation.

FEATURE SYMBOLISM

- The six triangular sentinels "guard" the veterans area, or the “hallowed ground” of the memorial. Each sentinel bears the seal of a branch of the US military. They are placed in the order of incorporation, left to right.
- Four benches commemorate a vital aspect of the military. POW's, MIA's, Women in the military and the eagle, the symbol of our great nation.
- Five battles are honored at Patriot Pointe. Each of the WWI, WWII, Korea, Vietnam and Persian Gulf plaques share a narrative of that conflict's history.
- Four benches look into the hallowed ground, reflecting upon the "Gallantry," "Honor," "Valor" and "Patriotism" of our Military Personnel.
- The central feature stands tall and proud, as do all veterans who have given their time to protect democracy. Observers are reflected in the black granite, momentarily incorporating them into the heart of the memorial.
- The features at the Thornview side of the memorial are akin to tributes of fallen comrades in the field.
