

Village of Skokie

November 4, 2011

For Immediate Release
Public Information Division

Interactive Mapping Tools Available at www.Skokie.org

Would you like to make custom maps of your neighborhood or easily obtain useful information on your property? Through MapOffice™, available at www.skokie.org, residents have access to interactive mapping tools that allow users to create, markup and print custom maps. Additionally, "My Skokie Property Search" powered by MapOffice™ gives residents and businesses access to an easy-to-use address search function and parcel summary tool. Users can simply type in their address and retrieve a range of information related to their property, including:

- Parcel/zoning information;
- Link to County PIN and Assessor Data;
- School district information; and
- Recycling/Garbage collection days.

To access MapOffice™, please visit Skokie's website at www.skokie.org, click on Skokie Maps in the left-hand column and type an address in the "My Skokie Property Search" tool.

The Village of Skokie became a member of the GIS Consortium, a cooperative of local governments that work to lower the cost of Geographic Information Systems (GIS) and related technologies, in 2005. As part of this membership, the Village has created, collected and maintained a wealth of geographic information such as parcels, aerial photography and roadways. This information also is available to all Skokie residents on Skokie's website, www.skokie.org, through MapOffice™, an interactive mapping application.
