The Maple Ridge system is a community septic that is sized for the neighborhood and is not expandable. The Somersville system is geographically distant, and any additional load would require a second processing station.

 - a. Chairman Reed reported that the contracts to complete Phase I and II work at the Somersville Mill site have been signed, work has begun, and both phases will be completed by September 1, 2015.
6. Chairman Reed confirmed the date of the next EDC meeting on September 14, 2015. There will not be regularly scheduled meetings in July and August. Mr. Potrikus advised the EDC of the opening of an adult care center at the intersection of Hall Hill Road and Route 190.
7. A motion to adjourn was made by Mr. Cheney and seconded by Mr. Potrikus. The motion carried 5-0 and the meeting was adjourned at 7:34.

Respectfully submitted,
