focus areas

and goals

A GREAT PLACE TO DO BUSINESS

Business | **Quality Jobs** Sturgis will be a leader in the region in creating quality jobs through business expansion and attraction.

Business | Entrepreneurs Sturgis will be a premier community for entrepreneurs.

Business / Commerce Sturgis will be the primary commerce center for the area.

Business | Workforce Sturgis will have a highly-skilled workforce with a majority of citizens who have post-high school degrees or training.

A COMMUNITY OF CHOICE

Community | Families Sturgis will be a preferred place for families to raise their children.

Community | Streets Sturgis will have one of the best street systems in Michigan.

Community | Downtown Sturgis will have a vibrant and active downtown that is the centerpiece of the community.

Community | Housing Sturgis will be the desired location in the area for people seeking quality housing and neighborhoods.

Community | Seniors Sturgis will be an attractive community for retirees and seniors.

TO: Honorable Mayor and City Commissioners

FROM: Michael L. Hughes, City Manager

DATE: August 11, 2021

RE: Fiscal Year 2021-22 Budget

Dear Honorable Mayor and City Commission:

In accordance with Chapter XIV, Section 3 of the City Charter, the City Manager is required to submit a recommended budget for the ensuing fiscal year to the City Commission on or before August 1st. The City Commission must adopt a budget on or before August 20th of each year and fix the amount of appropriations. The General Property Tax Act requires that the City Commission hold a public hearing before its final adoption.

INTRODUCTION

Last year was an unprecedented time and the development of the budget was like no other that I have experienced in my local government career. This year presents new challenges, in particular labor shortages that are forcing employers to rethink compensation and consider innovative options not only to retain and attract employees, but also to continue operations. For the City of Sturgis, attracting part-time and seasonal workers has been extremely difficult, impacting the ability to adequately maintain parks facilities and properly staff the Sturges-Young Center for the Arts (Sturges-Young). Consequently, due to almost no staff for serving and setup, the Sturges-Young discontinued its food service operation and transitioned to a catering model.

Signs of local economic prosperity like home sales, a return to extremely low unemployment rates after the height of the COVID-19 shutdowns and building permit revenue have been strong. These indicators also have flipsides for residents and businesses, creating tight housing and labor markets.

As with most things, even positive changes create new challenges for local government as well, particularly with staffing levels and the organization's capacity to adequately deliver services. From an organizational standpoint, we have been at a crossroads between level of service expectations and the ability to execute operations and implement capital projects with current resource levels. For that reason, the FY 2020-21 budget included staffing increases for the Electric Department, Public Services, Sturges-Young Center for the Arts, Engineering and Community Development as well as administrative support positions. The total number of full-time employees programmed for the FY 2020-21 budget was 104, still significantly lower than the City's staffing of 119 full-time employees in 2005. Filling these budgeted positions has been challenging, and we continue to look for ways to fill these needed roles. We are cautiously considering these staff additions given the uncertainty of the future.

The proposed FY 2021-22 budget moves forward with capital plans and maintains current operations. City staff will keep a watchful eye on budget impacts and respond accordingly.

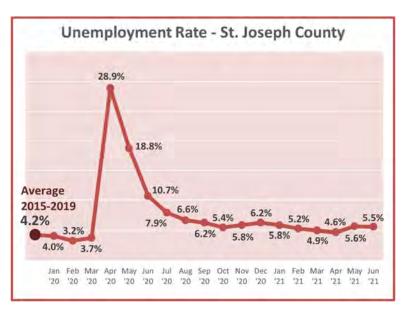

SUMMARY

Each year as part of my budget memo to the City Commission, I identify financial impacts including concerns and improvements as well as outcomes of strategies we have implemented to improve the City's financial position. My goal is to create a narrative of the budget helping those interested in understanding the City's financial position. Of course, the City's financial position is fluid and ever changing, so this budget memo really serves as a snapshot in time.

The following are key issues for understanding the City's financial position:

As mentioned in the introduction, recent indicators present a favorable local economic condition that also presents challenges in the community. Prior to the effects of the COVID-19 pandemic shutdown, the unemployment rate was at a historically low level, averaging 4.2% between 2015 and 2019 and bottoming out at 3.2% in the months leading up to the COVID-19 shutdowns. Unemployment spiked sharply in April of 2020 to nearly 30% before dropping down and stabilizing between 5 and 5.5% around October of 2020 through June of this year.

As shown in the chart on this page, the average number of properties active for sale in a month is trending at low numbers. While I view this as a "good problem" and necessary to create demand

for new home construction, employers have communicated difficulty in recruiting talent due to a lack of housing options. Building permit revenue and the number of building permits are at historically high levels demonstrating that construction and reinvestment is solid.

- The State of Michigan projected a \$3.2 billion shortfall in 2020. With an historic influx of federal funding, there is much uncertainty about the financial condition of the State of Michigan.
- From a tax perspective, even with the addition of 3 mils for streets and sidewalks and the increase in the general operating millage in recent years, the City's tax rate of 13.4518 mils (10.4623 mils operating, 2.9895 mils dedicated street and sidewalk repair) compares quite favorably to cities in southwest Michigan. This demonstrates a tradition of fiscal responsibility by the City of Sturgis, but also allows the City Commission flexibility to consider increasing the millage rate in the future for projects or services that it deems necessary while maintaining a competitive edge.
- Progress has been made in regard to state funding for road maintenance. Act 51 funds are intended to construct and repair street/road systems in Michigan. It remains widely accepted that the revenue allocations are inadequate. While City taxpayers stepped up to address street capital repairs through increased

2020 Millage Rate Comparison:

Cities in Eight Southwest Michigan Counties

property taxes, routine maintenance and operations like snow plowing, street sweeping, pothole patching, etc. had been an annual struggle given the funds redistributed to the City in past years. Funding changes were made that increased revenue but is far from the funding level necessary to characterize it as a complete solution. While Major and Local Street funds have transitioned from threatened to healthy, it is difficult to project this funding in the short-term.

- The Sturges-Young and Doyle Community Center were essentially shut down or severely restricted for public use by the Governor's Executive Orders during 2020. Efforts were made to limit expenses and conduct activities to prepare for reopening, however revenue was greatly impacted. Due to severe shortage of staffing at the Sturges-Young, the food operation was discontinued and a catering model adopted.
- For many years the flat nature of property tax and utility consumption make it difficult to keep pace with rising expenses. However, property values are experiencing significant increases with the County Equalization Department reporting a 31.7% increase over State Equalized Values for 2020.
- The relatively new mandate from the Michigan Department of Environment, Great Lakes and Energy (EGLE) regarding lead and copper water service lines has had a substantial impact on rates for the Water Fund. This mandate requires cities to inventory and replace lead services, including the private property owner's service line. The proposed rate design for the water fund is 6.9% for three years.
- The City's dedicated street millage will expire in 2022. A request for a renewal is anticipated for another 10 years in 2022.
- The City is slated to receive \$1,136,805 in Coronavirus State and Local Fiscal Recovery Funds established by the American Rescue Plan Act of 2021. This emergency funding is for responding to acute pandemic response needs, filling revenue shortfalls, and supporting the communities and populations hardest-hit by the COVID-19 crisis.

With respect to reinvestment in infrastructure, which is critical for growth and vitality, the City of Sturgis continues investment with a number of significant projects. Highlights include:

- Street reconstruction, rehabilitation, and repair
- Water service line and main replacement
- Wastewater Treatment Plant improvements and collection system rehabilitation
- Sanitary sewer lift station
- Electric distribution, transmission, substation, and hydroelectric improvements
- Thurston Woods Park improvements

The FY 2021-22 budget provides for various facility improvements for downtown parking lots, Public Services Utility Building, the Sturges-Young Center for the Arts, the Doyle Community Center, and the Police/Fire Building. The budget also includes purchase and replacement of essential vehicles and equipment such as a tanker truck, two patrol vehicles, a telehandler and a meter technician van. Other important equipment purchases include routine replacement of Fire Department SCBA units and turnout gear.

BUDGET GOALS

The primary goal in developing the annual operating budget is to continue to provide a wide range of City services that meet the community's needs, and at the same time, maintain the current City operating levy. This goal has been accomplished while:

- Maintaining an adequate contingency reserve in the City's General Fund balance
- Providing service levels and quality as established by the City Commission
- Providing for the City's needed infrastructure improvements

BUDGET HIGHLIGHTS

General Fund

General Fund revenues are projected at \$9,767,740, a 10.38% decrease. The budget assumes a 17.6% increase in state revenue sharing and continuing the property tax administration fee (projected to generate \$131,907 for FY 2021-22). General Fund total expenditures are budgeted at \$10,233,828, a 11.1% increase from the FY 2020-21 budgeted amount. The General Fund budget includes a slight decrease in fund balance reserves, resulting in an expected fund balance level of 23.77%.

With the elimination of personal property tax, the State provided a method of reimbursement to municipalities for lost tax revenue via the Local Community Stabilization Authority (LCSA). We are budgeting \$1.6 million in revenue for the LCSA for FY 2021-22. We are uncertain of how much we will consistently receive, but year-to-year consistency has provided more confidence. In 2019, the LCSA began phasing in a formula using current personal property tax numbers for each community and distributed funding proportionally compared to other municipalities. With the change in the formula, it is important that the City continues to support its industrial employers to ensure that they are growing and reinvesting in their businesses.

Major/Local Streets, Street Repair Fund & Street and Sidewalk Improvement Fund

As a result of the approved dedicated millage for street and sidewalk improvements, a new fund was created in 2013; 204 Street and Sidewalk Improvement Fund. The purpose of the fund is to segregate the earmarked tax revenue so that we can clearly demonstrate what projects are paid for by the dedicated street millage.

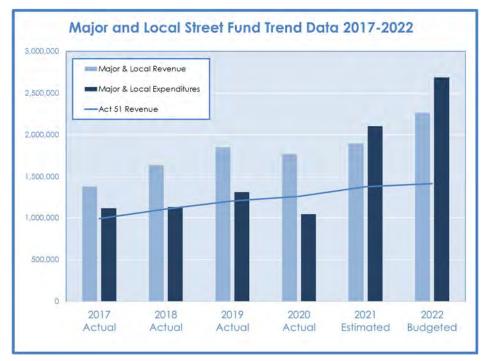

In FY 2021-22 the dedicated street millage revenue is projected at \$730,000. There is an additional \$211,900 budgeted due to the State amending the LCSA formula to include this millage. The FY 2021-22 budget includes a substantial resurfacing and repair program included in the Major and Local Street budgets. The other major street projects programmed are reconstruction of W. Congress St. and the N. Franks Ave. Roundabout.; in total budgeted at about \$615,000.

For years, both Major and Local Street funds battled to pay for operational expenditures and drew down on fund balance. As previously mentioned, changes to state funding of the Act 51 (gas tax) revenue have improved the revenue position of these funds. The budget projects that Major and Local

Streets Act 51 funding will each have increases of 21.8% and 26% respectively, with total Act 51 revenue projected at \$1,413,189.

Downtown Development Authority (DDA)

Decreases in property tax values in the downtown dating back to FY 2009-10 continue to impact the DDA's TIF captured value. While the TIF revenue is projected to increase in FY 2021-22, the fund receives 44% less

property tax revenue today as compared to FY 2009-10. Because property tax is the principal revenue source for the fund, substantial changes have been made over time to provide a balanced budget. The Downtown Development Authority worked to restructure itself to address this new fiscal reality. Despite the DDA TIF's financial woes the downtown appears healthy, but still impacted by COVID-19. The vacancy rate downtown is currently 7.9%, increased by new vacancies, most notably the closure of the Salvation Army's retail storefront. In an effort to continue positive momentum, the DDA Board hired a Downtown Event Coordinator to assist with organizing and promoting downtown events. This is consistent with the Sturgis 2022 goal of having a vibrant and active downtown that is the centerpiece of the community. After COVID-19 severely limited the DDA's ability to hold events in 2020, events and activities have returned, so far with good attendance.

Sturges-Young Center for the Arts and Doyle Community Center Funds

The Sturges-Young Center for the Arts Fund has been an area of concern – the cost of performances as well as the change in entertainment consumption and sponsorship support has made the provision of performances difficult at best. Coupled with the capital needs of an aging facility, the Sturges-Young has continued to struggle financially even as its board has worked to enhance its offerings to the community. Significant efforts have been made to renovate the facility, address staffing issues, implement elements of the strategic plan and improve operations. While all these efforts were teed up and progressing, the COVID-19 pandemic brought them to an abrupt halt. While attempting to emerge from a shuttered position, we found that essential part-time staff didn't return to work and those that did at some point pursued other opportunities. The lack of available workers for food operations, serving and setup forced the transition from an in-house food service operation to a catering model. As a result, the FY 2021-22 budget projects a decrease in food sales. The Sturges-Young will continue some concessions and liquor sales.

Similarly, the Doyle Community Center was severely impacted due to Executive Orders from the Governor either limiting or prohibiting operation. The Doyle Community Center Fund is primarily supported by revenue from memberships, as well as court rentals, endowment funding and various other program revenues. Increasing trends of healthy and active lifestyles have improved the financial condition of the Doyle Community Center over time. Reinvestment in the facility in the form of capital projects like a new track and court surface and a building addition for a new 24-hour weight room has resulted in increased memberships. Membership revenue is projected to be the same as budgeted in FY 2019-20. The Doyle Community Center Fund is budgeted to receive a \$59,040 transfer from the General Fund in FY 2021-22. This number increased from the previous fiscal year, but down from the high of \$65,000 in 1998. The Doyle Community Center fared better with attracting employees when reopening and membership revenue is steadily returning to pre-pandemic level. FY 2021-22 will be telling in terms of revenue and community use of the Doyle Community Center in a post-pandemic world.

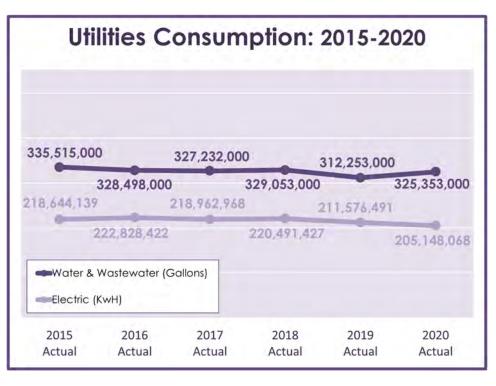

Capital Reserve Fund

The FY 2021-22 budget maintains service levels, which is no small feat in this challenging economic environment. Creative use and constant search of grant funds makes many improvements and projects possible, but unfortunately available funds and grant resources do not address all of the City's infrastructure needs. A contribution from the General Fund of \$620,000 is budgeted to replenish monies in the Capital Reserve Fund so that funding is available over time for facility and infrastructure replacement and improvement. Notable contributions for FY 2021-22 include Doyle Community Center Fund and Sturges-Young Center for the Arts Fund for facility improvements as well as \$420,000 for the Thurston Woods Park improvements and splash pad project.

Utilities: Electric, Wastewater and Water

The City Commission has worked over time to improve the health of these funds by means of regular

and measured rate increases. At the same time water and wastewater consumption has steadily decreased over the last 15 years from 470 million gallons in 2006 to 325 million gallons in 2020. This coupled with State mandates and capital needs born from aging infrastructure translates to future rate increases to maintain financial stability.

Electric consumption has remained consistent over the last decade averaging at 218 million kWh. Compared with these averages, 2019 and 2020 brought decreases in consumption due to energy saving opportunities combined shutdowns caused by the pandemic.

Noteworthy budgeted capital improvements include the electric rural transmission line and distribution system replacement, substation improvements, wastewater treatment plant and equipment repairs and replacement and lead service line and water main replacement.

Included in the budget are the rate schedules for water, sewer and electric. Due to the position of the utility funds, we have been and continue to be able to recommend reasonable increases that have less impact on the customer. To avoid the major increases that have caused issues in other communities, the key will be to review rates and implement adjustments on a consistent basis now and in the future.

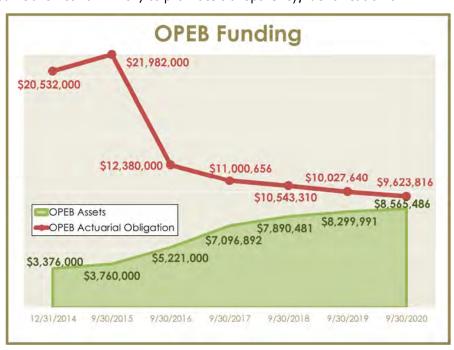

Given the fixed costs associated with providing utility services, the principal method of maintaining healthy funds is to establish rates that cover operational costs, debt obligations and necessary capital improvements. As mentioned, EGLE is mandating municipalities to inventory and replace lead services, including the private property owner's service line. This is a major driver of rate increases. The budget includes a 6.9% increase for the Water Fund for three years, no rate increase for the Wastewater Fund in year one, but a 2.5% increase for year's two and three and no rate increase for the Electric Fund for the next fiscal year.

The electric fund transitioned last year from purchasing power by a full requirements wholesale power purchase contract to a joint action agency model. The Michigan Public Power Agency now manages the City's purchase of power, and we believe it will bring long-term benefits to the electric utility and its customers. A 5.8% average overall rate decrease in 2020 was primarily due to passing on lower power supply costs to the customer.

Pension and OPEB

The State of Michigan enacted Public Act 202 in 2017 to promote transparency, identification of

potential problems, fiscal health, and an action plan for underfunded plans. For pension plans the underfunded trigger is 60% and for Other Post **Employment Benefits** (OPEB) plans 40%. The law requires adherence to funding, assumptions, and annual reporting. As of the last valuation date of September 30, 2020, the City's pension plan is funded at 100% and the OPEB Plan to 89%.

CLOSING

City staff has done an excellent job over time taking on the challenges that difficult financial times presented. The proposed budget provides increased capacity to move the City closer to service level expectations and needs.

I wish to take this opportunity to thank the City Commission for your guidance during the budget process. Often, the time and emotional commitment of a City Commissioner goes unnoticed, especially in a time when there are few easy decisions. Great appreciation should be given to our residents and businesses for their funding of services and infrastructure.

Lastly, I would also like to thank City staff for their hard work and dedication in preparing this budget. Our management team and employees work diligently to provide excellent service and to improve the performance of their departments. Special recognition should be given to City Controller/Finance Director Holly Keyser, City Clerk/Treasurer Ken Rhodes and Assistant City Manager Andrew Kuk for exceptional dedication and skill in meeting the challenge to create a budget that achieves the priorities of the City Commission and Sturgis residents.

Respectfully Submitted,

CITY OF STURGIS

Michael L. Hughes City Manager

CITY OF STURGIS 2021-2022 FISCAL YEAR BUDGET SUMMARY AND APPROPRIATION RESOLUTION

After holding a public hearing on August 11, 2021 and receiving public comment on the 2021-2022 Budget, it is moved by Commissioner Good and seconded by Commissioner Klinger that the proposed annual budget for the year 2021-2022 of the City of Sturgis be approved. After holding a public hearing on June 23, 2021, and receiving public comment, the City elected to levy a tax rate below the maximum tax rate authorized of 11.8477 mills after statutory roll-back. The City operating tax rate is set at 10.4623 mils and the City Street and Sidewalk Improvement tax rate is set at 2.9895 mils for ad valorem parcels for the 2021-2022 fiscal year, levied in July 2021. This levy is estimated to generate \$2,736,967 in revenue including a one percent administration fee and will be used to defray the expenditures and meet the liabilities of the City of Sturigis for 2021-2022 fiscal year. City taxes shall be distributed among City funds as set forth below, and total Revenue and Expenditure appropriations shall be approved as presented in this Appropriation Resolution. Furthermore, no transfer between funds shall occur without City Commission approval.
