

SPECIAL MEETING PUBLIC HEARING

Sturgis City Commission

Date: Monday, November 15, 2021

Time: 4:30 p.m.

Location: Wiesloch Raum, City Hall
130 N. Nottawa Street
Sturgis, MI 49091

Details

The City of Sturgis City Commission will hold a Public Hearing on a proposed roundabout at the intersection of N. Franks Avenue, E Lafayette Road, and the Middle School's East Entrance. The purpose of the Public Hearing is to receive public comment from interested persons regarding the proposed project. Sturgis has received a Highway Safety Improvements Program Grant (HSIP) to assist with funding the intersection safety improvements and a Public Hearing is a requirement of the Federal Highway Administration and Michigan Department of Transportation when proposed right of way acquisition and taking of public land is part of the project. The purpose of the grant is to improve the safety at the intersection and provide Sturgis Middle School students a safer crossing on E Lafayette Road.

Recommended improvements include the following

- Construction of a roundabout
- Sidewalk improvements
- Intersection Lighting

This project is partially funded through a Highway Safety Improvements Program Grant (HSIP).

If you are unable to attend the Public Hearing, comments can be submitted to the City Clerk at cityofsturgisclerk@sturgismi.gov until 5:00 p.m. on November 19, 2021.
