Addendum 1

ITB-11-53

The Invitation To Bid – Transportation Improvement Program, ITB-11-53, is hereby changed by addition of the following:

1. The seven (7) Proposal and Bid Form Pages 5 - 11, marked **Addendum 1**, in Excel format, are now posted to the website. You will be able to enter your unit prices, and it will calculate the totals for you. Please complete, print this out, and turn in along with all other necessary bid documents. Be sure to scroll up and down completely to fill in all bid items.
2. Required method for manhole cover adjustment lowering down 1" to match new paved surfaces (Sub Projects III and VI only):

City staff has field-verified the condition of the manhole covers in Sub Project III and Sub Project VI that will need to be adjusted down 1" to match the new paved surface. The majority of the manholes have brick chimneys and the method that will be required for the adjustment is to remove the ring and cover, remove a row of bricks, and re- install the ring and cover at the appropriate elevation. A concrete collar is not required.

Only one manhole cover was found to have an existing adjustable ring, and a couple more manhole covers will not need to be adjusted; as they are either located in the sidewalk or outside the limits of the re-surfacing.

3. Section of road along 8<sup>th</sup> St. NE that requires repair work:

A section of the road (100' long x 3' wide) along 8<sup>th</sup> Street NE in Sub Project VII is broken away and needs to be repaired. The City will be repairing this section of the road prior to the resurfacing.

All other terms and conditions remain the same.

Sincerely,

CITY OF WINTER HAVEN

A handwritten signature in black ink that reads 'Bob Bishop'. The signature is fluid and cursive, with a large loop at the end.
