

WATER MAIN REPAIR PROJECT

Construction Information

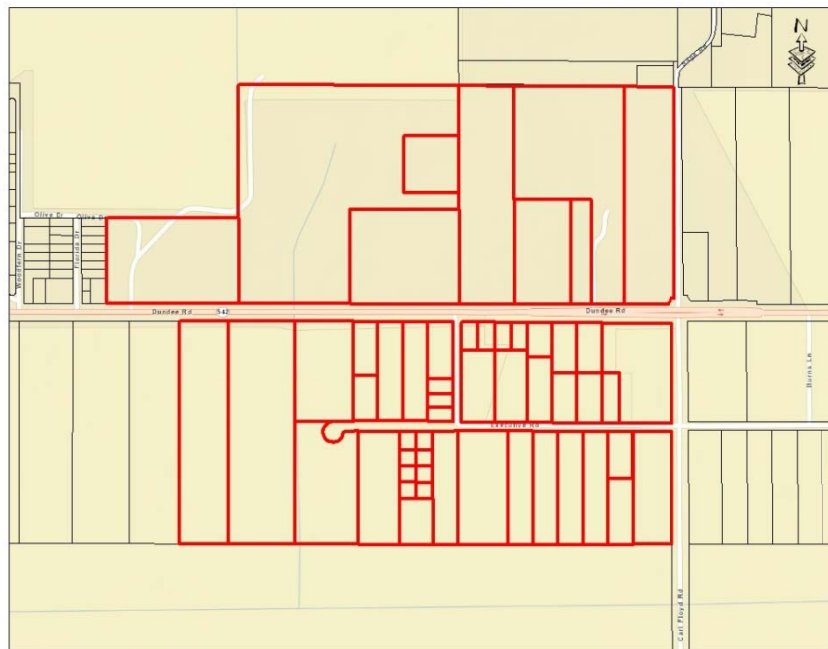

The City of Winter Haven will perform a water main repair project on Dundee Road, between Carl Floyd Road and Executive Road, Thursday, November 3, 2011. Interruption of water service will occur between the hours of 11 p.m. Thursday and 2 a.m. Friday.

As a precaution, it is advised that all water used for drinking or cooking be brought to a full rolling boil for a least one minute. The City is also advising water that has been previously boiled be used to wash fruits and vegetables or to make ice. The boil water notice will remain in effect until Sunday, November 6, 2011.

Periodic lane closures are anticipated Thursday evening and into the early morning hours Friday, Nov. 4. Access will be maintained for all residences and businesses.

Please direct any questions or comments to Kaye Boone, Utility Quality Control Officer, at 298-4482.
