**PUBLIC INFORMATION
PROJECT UPDATE
Hass Avenue Improvements
CITY OF DEARBORN HEIGHTS
From Silvery Lane to Telegraph.
March 27, 2017**

What does this Project involve?

The City of Dearborn Heights will begin reconstructing Hass Avenue from Silvery Lane to Telegraph Road. The west bound lane of Hass Avenue will be reconstructed first followed by reconstructing the east bound lane. Pavement removal will begin the week of April 3rd.

Will the street be open during construction?

The contractor will close the half of the road that is being reconstructed. One way traffic will be maintained going east bound on Hass Avenue. Detour signs will be in place to route traffic around the construction area. Access to your driveway will not be allowed during the reconstruction of your half of the roadway.

What about police, fire and rescue access to my home?

Fire, police, and rescue will be notified of the construction activity. Access will be made available for all emergency vehicles.

What about my trash pick up?

Continue to place your trash at the curb on your weekly scheduled pick-up day.

What will happen to my lawn sprinkler?

The Contractor will protect sprinkler heads near the curb whenever possible and will repair those that need to be removed during construction. Your help in flagging or marking these sprinkler heads would be greatly appreciated. Also, it is important that you turn off the sprinkler zones along the street.

Who do I call if I have a question or if problems arise during construction?

We encourage you to call our Engineering Consultant, Wade-Trim, with any construction related questions or problems. Please contact Dan Brooks, Wade-Trim Project Manager, and John Leverette Field Engineer at (734) 947-9700 or during construction contact the Project Inspector on site.

We appreciate everyone's cooperation.
